

JAN LAURENCE H. OLARTE

Full-Stack Development, Multimedia Editing, HTML & CSS

ABOUT ME

I am a motivated and growth-oriented IT professional specializing in full-stack development and emerging technologies. With experience in system development, Agentic AI projects, research, and collaborative team environments, I am passionate about building innovative and user-focused digital solutions. I value continuous learning, adaptability, and professionalism, and I aspire to contribute my technical and creative skills to organizations that drive innovation and meaningful impact.

EDUCATION

2019 - 2021 **ST. LOUIS UNIVERSITY | BACHELOR OF SCIENCE IN ACCOUNTANCY**

2022 - 2026 **ST. PAUL UNIVERSITY PHILIPPINES | BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY**

PROFESSIONAL EXPERIENCE

Sept. 2025 **EMPLOYABILITY ADVANTAGE | FULL-STACK AND AGENTIC AI DEVELOPER**

Completed a 10-week industry project focused on full-stack development and Amazon Web Services (AWS) Cloud under AusBiz Consulting Pty Ltd. Gained hands-on experience in front-end and back-end development, application deployment, cloud-based solutions, and modern software development practices, further strengthening my technical, analytical, and problem-solving skills in real-world project environments.

Nov. 2025 **CERTIPORT | INFORMATION TECHNOLOGY SPECIALIST - HTML & CSS**

Successfully passed the Information Technology Specialist (ITS) certification examination in HTML and CSS, demonstrating foundational and practical knowledge in web development, webpage styling, document structuring, accessibility, and responsive design principles. Strengthened technical skills in creating and designing user-friendly web interfaces using modern HTML and CSS practices.

Apr. 2026 **ST. PAUL UNIVERSITY PHILIPPINES | MENTORSHIP PROGRAM**

Became a lecturer during the Mentorship Program for Information Technology students by sharing tutorials, practical tips, and guidance on Capstone Development.

AWARDS AND CERTIFICATIONS

- **Certification of HTML & CSS (License: Co76-DwVk) | 2025 - 2030**
